

WAYWARD MACHINE CO.

ARTISAN METAL FABRICATION + DESIGN

METAL FINISHES

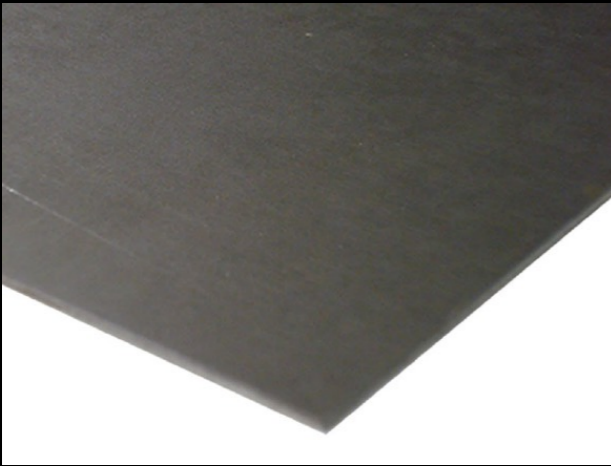

FINISHES, PATINAS, POLISHES AND PROTECTIVE COATINGS FOR STEEL

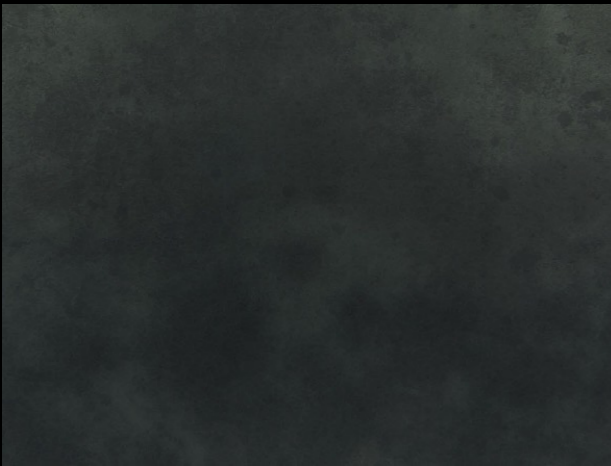

HOT ROLLED STEEL

HOT ROLLED STEEL FEATURES "SCALE" AND COLOR VARIATIONS THAT OFTEN THAT RANGE FROM SILVER TO A DEEP PURPLE. HOT ROLLED STEEL IS GREAT FOR WRAPPING FIRE PLACES AND OTHER LARGE STATEMENT DESIGN CHOICES.

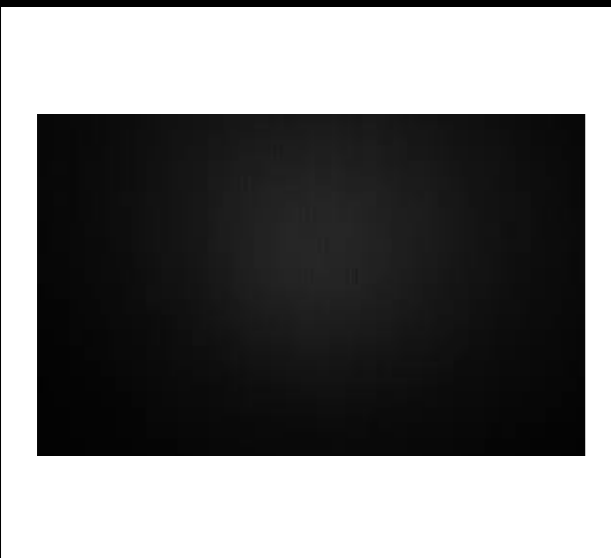

COLD ROLLED STEEL

COLD ROLLED STEEL HAS A MORE UNIFORM GREY COLOR THAN HOT ROLLED STEEL AND IS OFTEN WHAT PEOPLE THINK OF WHEN THEY WANT THE "STEEL" LOOK.

BLACKENED HOT ROLLED STEEL

BLACKENED HOT ROLLED STEEL IS SIMILAR TO HOT ROLLED STEEL BUT WITH DEEPER TONES AND LESS SILVER. BLACKENED STEEL USUALLY STILL HAS MINOR COLOR VARIATIONS AND YOU CAN SEE THE TEXTURE OF THE STEEL.

PAINTED/ POWDER COATED STEEL

PAINTED STEEL IS AN OPTION TO ACHIEVE A UNIFORM FINISH TO THE STEEL AND CHANGE THE COLOR TO ANY COLOR YOU WISH.

POWDER COATED STEEL IS A DURABLE OPTION AND GREAT FOR HIGH TRAFFIC AREAS OR TO USE OUTDOORS.

BRASS WITH BRUSHED PATINA

PATINAS ARE APPLIED TO THE TOP LAYER OF BRASS AND ALLOWS US TO CHANGE THE COLOR OF THE BRASS AND PROVIDE AN "AGED" LOOK.

"RAW" BRUSHED BRASS

BRUSHING BRASS KEEPS THE WARM YELLOW COLOR OF THE BRASS BUT PROVIDES A UNIFORM FINISH

"RAW" COPPER

COPPER IS A SOFT MATERIAL WITH A WARM RED/ORANGE COLOR AND A METALLIC FINISH. PATINAS CAN BE APPLIED TO COPPER AS WEEL.
